

"Alfords" in the 1860 LOUISIANA Census

This census report is a product of the AAFA census team. The initial list of names to be extracted was prepared from published census indexes and, in some cases, supplemented by unindexed entries. An every name extraction was performed using the microfilm as a source and the result verified for completeness and accuracy.

The following data is not intended to reflect either the "true" facts or what descendant families believe to be the facts. It is also not guaranteed to be without error. Nevertheless, every attempt has been made to provide a complete and faithful representation of the information recorded on the original enumeration forms.

The order of the information in the two line header: the name of the post office, township or political subdivision, and parish. On the second line: census page number, census dwelling or house number, census family number, microfilm roll number, and the enumeration date.

The categories on each line appear in the following order: name, sex, age in years or months (two columns), birth place, color, *MSR, property value and occupation.

* There may be any one of three entries:

M = married within the year

S = attended school within the year

R = can't read or write (or just W if can read but not write)

Birth place is shown with the approved postal abbreviations for states in the U.S. Foreign birth places are abbreviated as follows: IR = Ireland, GM = Germany, FR = France, and SP = Spain.

The association acknowledges the efforts of Lynn Shelly, Peggy Alford Schuster, and Gil Alford in the preparation of this report.
