

Alfords in Georgia Census - 1870

Submitted by Alicia Roundy Houston, AAFA #00001, Member AAFA Hall of Fame

This census report is a product of the AAFA census team. The initial list of names to be extracted was prepared from published census indexes and, in some cases, supplemented by unindexed entries. The everyname extraction was performed using the microfilm as a source — then verified for completeness and accuracy.

The following data is not intended to reflect either the “true” facts or what descendant families believe to be the facts. It is also not guaranteed to be without error. Nevertheless, every attempt has been made to provide a complete and faithful representation of the information recorded on the original enumeration forms.

The order of the information in the two line family header: the name of the post office, city or township, and county. On the 2nd line: census page number, census dwelling or house number, census family number, National Archives Series M593 microfilm roll number, and the enumeration date.

The categories on each line appear in the following order: name, sex, age in years or months (two columns), birthplace, color, *MSRV-PFB, property, and occupation. In the case of infants, the age is expressed in months, in which case the year column is left blank, and the month of birth is shown.

* Data collected in 1870 included information on marriage, school attendance, literacy, voting eligibility, and foreign birthplace of parents (if applicable).

M = married within the year and the month married

S = attended school within the year

R = can't read

W = can't write

V = eligible to vote (male over 21 years) PFB = Parents Foreign Born, “F” = father; “M” = Mother

Birthplace is shown with the approved postal abbreviations for states in the U.S. Foreign places, when applicable, are abbreviated as follows: GM = Germany, IR = Ireland, EN = England. NR indicates that the birthplace was not recorded by the census taker.

In 1870, Georgia was a state with a large population of Alfords. This particular census unit has been in progress for over 10 years. Robin Sterling did the original extraction, but then we obtained a more complete index and Peggy Schuster extracted some more families. She also checked the entire unit for consistency and completeness. William M. Alford, Sr. and Doris Alford Vetri input the information into the Alford database and Gil Alford processed the whole thing so that we could view it in a convenient format. All of these folks spent many hours to bring this unit to publication. For this effort, we owe them all a debt of gratitude.

choir." Edgar and Lochie also belonged to a group in the church called the "Live Wires." This is a group of senior citizens who meet once a week to eat, play cards, see plays, take bus trips, etc. Edgar and Lochie also belonged to the "Live Wire" choral group. This group would occasionally take road trips to other churches to sing. Lochie and Edgar enjoyed traveling. They took a trip to the Holy Land, Hawaii and to Alaska. After a while Lochie's health began to fail. She was diagnosed as having Alzheimers. In 1991 Edgar needed help in caring for her so they moved to an assisted living facility in San Antonio, Texas. Edgar unexpectedly died of a heart attack on June 28, 1991,

in San Antonio. He was buried in Shreveport at the Forest Park Cemetery next to Annice. The Masons from his Broadmoor Lodge handled the rites at his grave side service. Lochie died on March 25, 1994, in San Antonio and was buried in the Forest Park Lawndale Cemetery in Houston next to her first husband, James Sampson.

[Ed. For article about Rev. Joseph Martin Alford 1870-1963, see AAFA ACTION, No. 41, Summer 1998, Vol. XI, No. 1, pp 24-25.]
