**2009 Annual Meeting/Reunion
Texas in October**

February 2009

Dear AAFA Member,

Yes, in spite of what you might think, you are still a member of the Alford association and you will be forever.

We are writing to you because you have no email address in our membership file. We suspect you might have one and we would like to have it so that we can keep you advised about your Alford's and what's happening in the association. Our free monthly on-line newsletter may be of interest.

It is not certain as to when we were last in touch but you may not know about our website at www.alfordassociation.org and we invite you to visit.

About three years ago we became involved in an Alford Y-DNA project which has been very revealing. Perhaps you would like to check it out at <http://www.worldfamilies.net/surnames/alford/> and don't forget to check the RESULTS.

We don't have the details of exactly when and where but we do know that our 22nd annual meeting/reunion this year will be in the Dallas-Ft. Worth, TX area and during one of the first two week-ends of October.

Please let us hear from you and tell us how you are doing and if we have the data correct on your mailing label. Write, send email or call.
