

“Alfords” in Pennsylvania Census - 1850

This census report is a product of the AAFA census team. The initial list of names to be extracted was prepared from published census indexes and, in some cases, supplemented by unindexed entries. The everyname extraction was performed using the microfilm as a source – then verified for completeness and accuracy.

The following data is not intended to reflect either the “true” facts or what descendant families believe to be the facts. It is also not guaranteed to be without error. Nevertheless, every attempt has been made to provide a complete and faithful representation of the information recorded on the original enumeration forms.

The categories on each line appear in the following order: name, sex, age in years or months (two columns), color, birth place, *MSW, property, and occupation.

* There may be any one of three entries:

M = married within the year

S = attended school within the year

W = can't read or write

Birthplace is shown with the approved postal abbreviations for states in the U.S. Foreign places, if applicable, were abbreviated as follows: GM = Germany, EN = England, WL = Wales, IR = Ireland, etc.

The order of the information in the two line family header: the name of the political subdivision and county. On the 2nd line: microfilm series number and roll, census page number, census dwelling or house number, and census family number. The enumeration date is on the 3rd line.

The association acknowledges the efforts of Deena Cross, Marge Gray, Brenda Parker, JoLynn Alford Long, and Gil Alford in the preparation of this report.

could have been the son between 5-10 with the census taker getting a little off on his age, and Reuben the son between 0-5. This scenario would account for the three sons listed in the 1840 census. Also, William Henry was married in Muscogee County and was born in Upson Co., placing him where Clinton was in both situations. I have discounted him being the son of Job or John Turner Alford, and Job's other sons were too young to have been William Henry's father. As far as George Washington Alford, father of George Towns Alford, goes, I believe he may have been the son of Jephtha Alford, who I believe was the son of Goodrich Alford and first cousin to Clinton Alford. There was a young George Washington Alford living next door to Jephtha Alford in Carroll Co., Georgia in 1850. Although, he is not mentioned in Jephtha's will, there may have been reasons he was left out. But I will wait on that theory; another time and another place. I look forward to any thoughts and reactions to this theory on Clinton Alford. I want the input of others, but for the time being, I personally am looking at revamping my records unless I see or hear anything to disprove in any way my conclusion.
