Most of the rest of the data pertaining to William H. Alford, his wives and families came from Margaret (Mrs. Henry) Alford, AAFA #0820 of Owensboro, KY. Sometimes reference to her data will be shown as "HAJ" (our code for Henry Alford, Jr.)

There are two versions of his birth date. He is supposed to have used 1848 in order to get into the Civil War. His real birth date is July, 15 1850 (HAJ).

Even his death certificate, shows the wrong year of birth. It shows Jul 15, 1843. The 1850 and 1860 censuses prove he was born after the 1850 census. Because of the dates the wrong person is shown as his mother on the birth certificate.

Bobby Alford apparently still has some differences regarding the dates on William H. Alford.

MAN SHOT LOSES EYES ----- Bill Alford, Accidentally Discharged Gun, Shot Hits Crid Wilson

An accidental shooting occurred about 6 o'clock Monday night on the Frank Miller farm, in the Ray's Branch neighborhood, resulting in Crid Wilson, 69, farmer, losing both eyes. The injured man was rushed to the city hospital, where both eyes were removed last night.

The wounded man was shot by Bill Alford, 80, when a shot gun belonging to Frank Miller was accidentally discharged while Alford was loading it in a crate house on the place. The load passed through the inch plank walls of the building and struck Wilson, who was seated in a chair just outside the building, twenty-four shot penetrating the eyeballs and face.

Wilson and Alford were employed by Miller to guard his melon patch and they were about to

go on duty when the accident happened. Wilson fully exonerated Alford, stating that the shooting was purely accidental.
