

## Mississippi "Alford" Marriages

The list below contains what you might call our best Mississippi marriage records. Each has the name of the "Alford," the spouse, place and complete date. A few may be involved with some controversy but the more controversial ones were not included. If there is a \* or ? any where in the record that means there is some question surrounding the record. AAFA has many more Mississippi marriage records but there is one or more data element missing. A larger list will be posted on the web site later.

This marriage data is a subset of the main AAFA database which also contains data on birth, death, burial, census, etc.

Name and spouse need no explanation. In some cases the "Alford" had more than one marriage. The marriage number appears under the "s" just before the name of the spouse. The date of marriage (dom) is shown as YYYYMMDD and the place of marriage (wp) is ST and County abbreviation. A source is shown in most cases. The most common source is "R ?/###" which means AAFA member Ruby Heard extracted the data from the Mississippi Archives or a local court house. The slash phrase is marriage book/page number. H/B is a marriage list AAFA purchased from a company called Hunting for Bears. CWA means the late AAFA member Charlotte (Mrs. C. Wiley) Alford contributed to some part of the record and WMA means the late AAFA member Willie M. Alford contributed. The "source" may not always pertain to the marriage data. For example, when SSDI appears in the source it refers to death information not displayed in this list.
