

ALFORD FAMILY BULLETIN

No. 7

April 1977

We now continue some of the census records from the 1880 Soundex, which were not included in previous issues. Our experience has been that some members of the family remain in the original area, hence our use of the 1880 soundex. Exact quotation is made in order that copies may be ordered for that entry for a nominal fee from the National Archives Washington, D. C.

Again, we request that you furnish as much information on your lines showing all dates, places, in order for us to help as many as possible to solve their problem.

Our first or given name file is always searched for answers to any problems we receive.

Your indication of receipt or non-receipt of this publication is much appreciated. We certainly do not want anyone to miss an issue.

As a new feature we will accept a limited number of brief questions on your problem for listing in the Alford Family Bulletin.

Our first supplement will be ready soon, notification as to cost and date will be mailed later.

Please make all checks payable to Tressie E. Bowman.
