3rd Great Grand Parents

32. Jesse Alford b. bef 1765, North Carolina..

This branch of the Alford family was in North Carolina from the time of the 1790 census and before.

1790 Pitt Co., Newbern Jesse 1-1-1 which means one male 16 or older, one under 16 and one female.

1800 Pitt Co. Jesse 41010-00010 which means four sons age 0-9 and 1 age 10-15.

1810 Pitt Co. Jesse 31101-10002 means three sons 0-9, one 10-15 and 16-25. There was a daughter 0-9 and the second older female may have been his mother or a sister.

1820 Pitt Co. Jesse 100101-00102 says he has a son 0-9 and one 18-26. There was a daughter 16-26 and there was still the two older women. It is interesting to note that in 1820 on the same page with Jesse was the family of Margaret born before 1775. Included were two sons under ten, two daughters under ten and a daughter 26-45. (We are saying "sons" and "daughters" but it would be more correct to say "males" and "females." It is suspected that the census - or the AAFA census extraction - missed Margaret's family in 1810.

1830 Edgecombe Co. Jesse 00000001-000000011. This would be Jesse and his wife, now age 50-60 along with an older female. Margaret's family is gone as quickly as they appeared.

1840 Edgecombe Co. There were four Alford families but so far we have data on only two of them. 11th District page 37 Lucy 00101-10001 11th District page 37 Edmond _____ 11th District page 40 Edmond 11001-01001 3rd District page 9 Duncan _____

1850. There are some gaps in the census data here. All in the AAFA extract that might be this branch of the family is a Margaret A. Alfred age 9 enumerated in Stancills District, Pitt Co., with the family of Hardy G. Parker and wife Sarah.

See son Edward and grandson Jesse for 1860 census information.
